Personal Summary

Dedicated University student soon to graduate with good time management and communication skills. I enforce a good working environment with other members of the workplace and can stand for long periods of time. I am seeking to gain experience in the web development industry.

Languages, Technologies and Frameworks

Proficient: PHP, Python, Django, JavaScript, Nodejs, Reactjs, C, C#, Xamarin, .Net
Exposure: Arduino, ASM, SCSS

Education

2018 - 2021   **University of Derby** Graduation June 2021

Bachelor of Science in Computer Science (Hons)

- Dissertation title: Contactless Temperature Monitoring System For COVID-19.

My project is focusing on detecting a face and person's body temperature using arduino modules to then send the data to a webserver using a different module that's connecting to a local WiFi network.

2016 - 2018   **Burton and South Derbyshire College**

AQA Level 3 Computer Science and IT Tech Level Programming

2015 – 2016   **Burton and South Derbyshire College**

OCR Level 2 Cambridge Technical Diploma in IT

2012 - 2015   **The Pingle School**

Employment

2016 - 2020   **Argos Warehouse**

Picker/Dispatch PPT

- Loaded and unloaded trailers using ppt
- Stocked, replenished, and organized inventory with accuracy and efficiency.
- Inserted data in computer using Argo's program.
- Used a handheld scanner to scan labels as well as filling up dispatch paperwork.
- Organize and rotate the stock of products on warehouse shelves, in storage areas and around outdoor stock yards.
- Check over warehouse inventory each day and communicate quality defects, quantity discrepancies and other problems to team foreman.
- Deliver products and materials from the warehouse to other parts of the campus when requested by company departments or workers.
- Arranged materials and stock each day by department, purpose and unique product code number as new shipments came in.
- Followed all safety regulations when moving through the warehouse by staying within marked pedestrian areas and communicating and listening to coworkers during shipment transport.
- Ensured that warehouse aisles, shelves, floors and machinery were kept clean and free from dangerous materials or potential tripping hazards.

2016 - 2016   **Burton Library**

Worked as IT Support

- Helped visitors login to their emails and accounts

- Fixed printers by replacing ink cartilages, getting rid of jammed paper, and making sure the bluetooth connection was intact.
- Put misplaced books back in their original places.

2014 - 2014   **Brunel Healthcare**
Two weeks of unpaid work experience

Skills
- Capability of lifting up to 100 pounds when moving and rearranging heavy boxes of materials or loading items onto a truck.
- Ability to listen attentively when being given instructions about next steps from warehouse supervisors or other colleagues.
- Strong oral communication skills when relaying information about product quality or shipping orders to other members of the team.
- Commitment to delivering excellent service to customers when fulfilling warehouse orders and putting together shipments to the public.
- Knowledgeable with computer database technology when working with inventory.

Hobbies and Interests
- Online gamer. I participate in online computer games with a community of real-time players and work on equipping my computer with high-quality hardware to improve the gaming experience.
- Software Developer: I designed and programmed my own computer game.
